

## A Day In Oak Room From A Child's Perspective

When we arrive...

We find the peg with our photo on and hang up our bags and coats.

We change out of our shoes and into our comfy slippers.

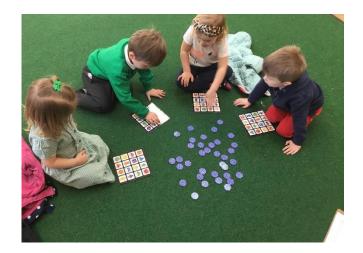

Then we find the log slice with our name on and hang it on our registration table.

We sit on the carpet for our morning carpet time to find out about the day ahead, then we explore the activities in our classroom. There's so much to choose from!

We might choose to practice our writing in our mark-making area...

Build castles and towers in our construction area...

Learn about numbers, shape, weight and patterns in our maths area...

Create a masterpiece in our creative area...

Create new worlds in our small world and role play areas...

Or try some co-ordination and finger strength activities in our fine motor area!

We love to explore our outside area. We go outside in all weathers, so we need to make sure we have wellies, a hat and a waterproof coat with us!

At Evergreen, we have our own cook who makes us a morning/afternoon snack and a delicious hot lunch. We can choose to have a snack and a hot lunch from the kitchen, or we can choose to bring our own packed lunch from home.

We have our own toilets, just for our class.

In the afternoon, we come together for another carpet time, before exploring our classroom and outside area again.

At the end of the day, we come back to the carpet for a story and some singing, before it's time to collect our belongings and say goodbye to our friends until next time.
